

THE GENDER PAY GAP REPORT 2025

THIS REPORT REFERS TO
EUROVIA INFRASTRUCTURE LIMITED

INTRODUCTION

The transparency and accountability that gender pay gap reporting brings is crucial in driving greater equality in the workplace. We continued to build on the progress made in previous years and outline what action we are taking to close the gender pay gap that exists in Eurovia Infrastructure Limited.

To achieve our goal of a genuinely diverse and inclusive workplace we promote everyday inclusion – the behaviours that we can demonstrate every day to help to ensure everybody feels respected, valued and able to contribute. This will continue to create a culture where all of our colleagues can be themselves and feel empowered to succeed; this is critical if we are to attract and retain the best talent and deliver a successful business.

The data in this report is reflective of a moment in time, specifically a snap shot date of the 5 April 2025. We acknowledge that there is still much more work to be done and our journey continues.

the gender balance is

WHAT IS THE GENDER PAY GAP AT EUROVIA INFRASTRUCTURE LIMITED?

The gender pay gap shows the difference in average pay between women and men. This is different to equal pay i.e. women and men receiving the same pay for the same role.

The gender pay gap takes into account all roles at all levels of the organisation, rather than comparing pay received by women and

men performing the same roles. We regularly review and analyse our employee pay to ensure men and women are treated equally when performing the same role. We are therefore confident that we do not have equal pay issues. Instead, our gender pay and bonus gaps reflect our organisational structure.

These calculations are not perfect, because different jobs pay differently and the number of men and women performing these jobs varies, this is why a gender pay gap exists. However, these calculations are an indication of inequalities in areas such as access to work, progression and rewards, essentially who works in which job.

HOW HAVE THESE NUMBERS CHANGED SINCE THE 2024 STATISTICS?

The gender pay and bonus gaps for Eurovia Infrastructure Limited remain larger than we would like for 2025.

Unfortunately, the mean gender pay gap has increased in 2025 by 4.31% to a new rate of 22.38% (from 18.07% in 2024).

The median pay gap has also increased in 2025 by 8.51% (from 17.47% in 2024) to a new median pay gap of 25.98%.

The mean bonus pay gap has also increased by 21.85% (from 15.23% in 2024) to 37.08% in 2025.

Our gender pay and bonus gaps reflect our organisational structure. We have proportionately more women employed in lower skilled roles such as administrative and clerical roles, where pay is lower, and proportionately more men in our higher skilled roles and senior leadership roles, such as Operations Managers and Contracts Managers.

Our data should be taken in context, as it has historically been more common for more men than women to be employed in the contracting and production industry, or to apply to work there.

Whilst representation of women has increased in the business since the 2024 statistics, more than 85% of our employees are men, and it is therefore more difficult to make a direct comparison of gender pay.

VINCI MANIFESTO

The VINCI Manifesto, Code of Conduct and Ethics and the Anti-Corruption Code serve as a reminder that belonging to the VINCI Group involves more than just strict adherence to applicable laws and regulations.

The codes set out the principles of business ethics that guide our conduct and states VINCI's expectation that we all demonstrate exemplary conduct based on transparency, integrity, fairness and respect.

TAKING ACTION

WHAT WE ACHIEVED IN 2025...

WHAT 2026 WILL BRING...

TACKLING THE GAP FROM THE TOP

As a leadership team, we are pleased that elements of our gender pay gap figures continue to move in the right direction, however, we still have much to do to improve gender parity. We need to ensure more opportunities exist for female talent to join Eurovia and to have a fulfilled sustainable career with us.

At Eurovia we know that a diverse team creates a stronger, more dynamic business, which makes us a more attractive and sustainable employer. We want to create an environment where everyone feels like they belong, can be themselves and know their voice will be heard. This is not something that can be easily achieved within a single reporting cycle, but we are committed to long-term sustainable change.

We want to make sure that everyone at Eurovia feels supported to grow, develop and thrive. We also firmly believe that this continued focus starts at the top and therefore all of our Leadership Team have signed this report to demonstrate their shared commitment.

We are not afraid to challenge our preconceptions of how we work and our established ways of thinking. We see this as critical in enabling us to understand what our customers want and expect from us, and to better represent the communities we serve.

We are also realistic about the challenges we face and the historical composition of the industries we operate in. We are committed to understanding the root causes of issues, finding solutions that are both practical and beneficial to employees and being transparent.

THE GENDER PAY GAP

closing it
together

We're tackling the gap, **top down** by changing people's attitudes through better dialogue, strong leadership and changing our behaviours

..and **bottom up**, through working groups that are owned, managed and controlled by our people working to a shared vision with a clear escalation route to our leaders.
